

Pool Deck

Code: ANCMF-AU-ACF-PD-02 • Facility: Aged Care Facility • Frequency: daily

Scope of Work

- Thoroughly clean and sanitize all surfaces, including poolside tiles, handrails, and seating areas.
- Remove any debris, litter, or organic matter from the pool deck area.
- Ensure all drains and water outlets are free from blockages and clean.
- Wipe down and disinfect all high-touch surfaces, including door handles and light switches.
- Clean and polish any glass surfaces or windows surrounding the pool deck.
- Ensure all cleaning agents used are suitable for use in aged care facilities and safe for residents.

Method

1. Begin by removing all loose debris and litter from the pool deck area using appropriate tools.
2. Apply a suitable cleaning solution to all surfaces, allowing it to dwell for the recommended time to ensure effective sanitization.
3. Scrub surfaces with a non-abrasive brush or mop to remove dirt and grime.
4. Rinse all surfaces thoroughly with clean water to remove any cleaning solution residue.
5. Dry all surfaces using a squeegee or absorbent cloth to prevent slip hazards.
6. Inspect all areas to ensure no spots or streaks remain, and re-clean if necessary.

Equipment

- Non-abrasive scrub brushes
- Squeegees
- Approved cleaning and sanitizing agents
- Mops and buckets
- Microfiber cloths
- Protective gloves and eyewear

Quality Criteria

Performance Level	Criteria
Excellent	All surfaces are spotless, with no visible dirt, grime, or streaks. High-touch areas are sanitized and free from any residue. No debris or litter is present. Drains are clean and free-flowing.
Good	Minor spots or streaks may be present on surfaces, but overall cleanliness is maintained. High-touch areas are mostly sanitized. Minimal debris or litter is present. Drains are mostly clean.
Pass	Visible dirt or streaks are present on some surfaces. High-touch areas show signs of incomplete sanitization. Some debris or litter is present. Drains are partially blocked.
Fail	Significant dirt, grime, or streaks are visible on surfaces. High-touch areas are not sanitized. Excessive debris or litter is present. Drains are blocked, causing water pooling.
